

iDateStartup.com event to take place August 11 in San Francisco: Special Event for Startup Dating Businesses & Dating Affiliates.

July 12, 2011

New York, NY--Ticonderoga Ventures, Inc. announces the next <http://www.iDateStartup.com> – a series of special events for new dating industry startup companies and dating affiliates. The August event will take place from 6:30 PM to 9:30 PM on August 11, 2011.

PaymentWall is the sponsor of the party and it will be held in their penthouse office in downtown San Francisco.

Pre-registration is required and can be made at <http://www.idatestartup.com>

iDateStartup.com are a series of free business networking events that provide a relaxed and enjoyable forum for entrepreneurs and affiliates in the dating space to make new contacts, network with colleagues and business leaders. With the ability to meet among major executives in the dating industry, entrepreneurs can: better refine their business models, find partners, learn of market opportunities, discuss acquisition and funding opportunities.

The successful inaugural iDateStartup took place last month at the annual West Coast Internet Dating Industry Conference in Los Angeles, CA.

iDateStartup's goal is to aid local entrepreneurs and affiliates in the dating space with the business contacts and tools to get them off the ground and running in a cost effective manner with a viable business model.

About the iDate Dating Industry Conference.

For 8 years, iDate is the longest running and largest event for all aspects of the dating industry. Senior executives from online dating, mobile dating, social dating, matchmakers, dating affiliates, dating coaches and other attend iDate events to network and increase business opportunities.

About Paymentwall.

Paymentwall (<http://www.paymentwall.com>) is the global payments platform integrating over 70 local payment options from around the world. In 2010, Paymentwall launched its dating-industry specific alternative payments platform supporting subscriptions with various payment types (credit & debit cards, mobile payments, ewallets, landline payments, and prepaid cards) in almost all countries of the world. The Paymentwall product is fully localized in 20+ languages and presents an easy way for the users to pay for webservices, digital content and subscriptions.
